YOUR BUSINESS  
**FOR FREE!\***

HARBORTOUCH

## The Harbortouch POS Elite system delivers a high quality POS system that is unmatched in both reliability and usability

### TAKE ADVANTAGE OF STREAMLINED OPERATIONS

Manage multiple operations through your Harbortouch POS system: accept cash, checks, credit and debit, place orders, access reports, track inventory, and manage employees with the built-in time clock.

### GET A TOP LEVEL VIEW OF YOUR BUSINESS WITH ROBUST REPORTING

A wide range of comprehensive reports allow you to monitor financials, track inventory, view sales history and identify sales trends.

### UTILIZE COUNTLESS TIME AND MONEY SAVING FEATURES

Increase operational efficiency, minimize ordering errors and reduce shrinkage. More accurate employee time tracking reduces payroll while Harbortouch's reporting capabilities help you decrease accounting and book-keeping expenses.

### BENEFIT FROM ADVANCED SOFTWARE WITH TOP-OF-THE-LINE HARDWARE

State-of-the-art POS software provides all the features and functionality needed to support your business while high-end hardware provides the reliability you need.

## PLUS:

All-in-one design and cast aluminum body for maximum durability and sleek appearance

Powerful processor delivers blazingly fast speed and flawless performance

Massive storage to support even the largest inventories as well as extensive reporting data

**LIFETIME GUARANTEE!**  
If your equipment ever malfunctions, we will replace it  
**FREE OF CHARGE!\***

## Countless Time & Money Saving Features!

### Order Entry/Ticketing

Manage your orders more accurately and efficiently whether you need to transfer tickets to other users, change tables, split checks, change the price or quantity of an item, repeat previously ordered items, manage gratuity and taxes or various other tasks.

### Menu Setup

Add and edit menu items in real-time with a simple and intuitive interface. The menu settings can be fully customized and feature unlimited menu items, categories, choice sets and modifiers.

### Customer Database

Quickly view customers' order history and personal/contact information. You can also identify best customers which is ideal for loyalty programs or other incentives.

### Bar Tabs

Allow your bar patrons to open a tab, encouraging increased spending and more revenue for your business.

### Fresh Sheet

Check inventory count in real-time. View a countdown of item portions remaining on-hand and receive a notification when an item is running low.

### Flexible Pricing

Dynamically create manual comps, coupons and automatic discounts within seconds. Various options allow you to easily create happy hour or late night specials by specifying whether a discount is for a particular time or day and whether the discount is a set amount or a percentage.

### Employee Management

Access a complete employee database, showing specific details on each staff member. Track hours worked, edit timesheets, calculate overtime, evaluate sales performance and manage security levels.

### Table Tracking

Manage the tables in your restaurant and see which tables are occupied, which are vacant and how many people are at each table.

### Internal Messaging

Communicate directly with your staff by adding a message of the day to the login screen (i.e., promote sales of a particular item, wish a happy birthday, etc.).

## Harbortouch Reservations

### Free Online Reservations Module!

Harbortouch Reservations enables restaurants to manage all incoming reservations directly through the Harbortouch POS system. This feature allows you to accept reservations online or manually enter reservations at the point of sale and track them all through your POS system. Similar online reservation systems cost hundreds of dollars a month, but Harbortouch Reservations is now free of charge with a Harbortouch Hospitality POS system!

Manage online and manually-entered reservations in one place

Easy-to-use interface for maximum efficiency

Drag-and-drop setup process makes creating your table layout a snap

Organize upcoming reservations in the monthly calendar or view a specific night in detail

Easy to add new reservations and see who is currently waiting for a table

Table layout screen shows which tables are open and which are occupied

Text message alerts notify restaurant patrons when their table is ready

Build a customer database for marketing and loyalty programs

## Harbortouch Lighthouse

### Free Online POS Management System!

The Lighthouse is a management and reporting tool that communicates information between your POS system and Harbortouch Online, our online merchant portal, to integrate the POS and credit card aspects of your business. It eliminates the need for a back-office PC by allowing you to access the information on your POS system from any computer with an Internet connection. Among other features, the Lighthouse enables you to run various real-time reports and even make changes to your menu remotely. The Lighthouse puts you in total control of your business, without being tied to your business!

Access your sales reports

Access your inventory reports

View your credit card statements

View your deposits

Remotely edit menu items and pricing

Utilize the live chat feature

View "how-to" demonstration videos

Access Quick Reference Guides and FAQs

## A Company You Can Trust

### An Award Winning Industry Leader!

Harbortouch offers a full range of merchant services, supplying POS systems, electronic cash registers and credit card processing terminals as part of its unparalleled free\* equipment program.

As one of the largest and most reputable payment processors in the United States, Harbortouch currently handles the merchant accounts for over 120,000 business locations and processes in excess of \$10 billion annually, with those numbers continually increasing.

Consistently recognized as a leader in innovation, Harbortouch is a five-time Inc. 500/5000 honoree (2005-2009) and was listed on Deloitte's 2008 "Technology Fast 50" list. Additionally, Harbortouch was named a Gold winner by the 2012 Golden Bridge Awards, a Silver Winner by the 2012 Best in Biz Awards and a Bronze winner by the 2012 American Business Awards. Harbortouch is an RSPA certified solutions provider and has also garnered awards for its outstanding customer service and technical support.

**Tabbedout**  
PAY YOUR TAB WITH YOUR PHONE

Tabbedout makes mobile payments a simple and secure process, providing maximum convenience to your customers while increasing efficiency for your business. The free Tabbedout app for iPhone and Android allows patrons to open a tab with their mobile phone, view their tab in real-time and pay the tab anytime, anywhere. Tabbedout was built for the hospitality industry and is seamlessly integrated with your Harbortouch POS system, requiring no additional hardware.

## Hear What Our Merchants Are Saying

David M. from  
Rivals Sports Bar & Nightclub

"Overall, my experience with Harbortouch has been fantastic. The hardware is top quality and very durable which is important in such a fast-paced restaurant environment. The software is extremely easy to use and has saved me a lot of time during opening since the waitstaff required very minimal training to be able to efficiently use the system. The support team has been great. I can call them 24/7 and they are available to help me with any questions I have. I am very happy with my decision to choose Harbortouch for my business."

### Training & Installation

"The installation process was quick and the installer was very professional. Once the system was installed, the technician showed me the basics and then set up an appointment for me to have more in depth training. My employees all had experience on other systems prior to joining our team and they found the system very user friendly compared to other POS systems. They were able to use it competently within minutes."

### Time & Money Saving Features

"The system has made our business more efficient in so many ways. It allows us to create restaurant sections, ensures order accuracy, and instantly relays tickets to the kitchen or service bar. As an owner, Harbortouch makes my life much easier since it creates what seems to be an endless list of reports relevant to the business from average sales per hour to payroll."

### Remote Management & Reporting

"One of the best things about Harbortouch is the ability to remotely update the system with any changes in real-time using the Lighthouse program. Being able to update prices, products and specials within a few seconds and having them immediately become active in the system is extremely convenient. Lighthouse also lets me access all of my business reports when I am not at the restaurant from my computer or smartphone."
